

iQ Wall Cages™

Sync, charge,
store, and secure
up to 16 iPad or
iPad Air devices

-  **Efficient syncing.** Using synchronization software on your MacBook, the iQ Wall Cages can sync up to 16 iPad or iPad Air devices simultaneously.¹
-  **Extremely portable.** The iQ Wall Cages are equipped with two removable 8 slot Carry Baskets. This makes iPad or iPad Air deployments easier.
-  **Style meets functionality.** The iQ Wall Cages features top loading drawers so that iPad or iPad Air devices can be accessed quicker, easier and by more users at once.
-  **Efficient charging.** With 2.1 amp power at each port, the iQ Wall Cages are capable of charging up to 16 iPad or iPad Air devices at the same time.
-  **More for less.** Bonus 16 x illuminating 30-pin High Speed USB Cables FREE!
-  **Lock it down.** The iQ Wall Cages come with a Wall Mount Kit so that you can secure them to a wall.
-  **Lifetime warranty.** LocknCharge products are built to last the distance.²

It just makes life easier.

Designed to go where others can't. Stairs, rough terrain or want to split your set of iPad devices? It's easy with the 8 slot Carry Baskets.

- Aluminum construction so that it's both lightweight and durable as the same time
- Foam slots for maximum protection for devices
- Receive two removable Carry Baskets (1 per Wall Cage)
- Each Carry Basket can hold up to 8 iPad devices

Secure syncing or charging! The externally accessible USB host port means that you can sync or charge your devices whilst being locked in the Cages and secured on the Wall.

Neat cable management. The iQ Wall Cages are designed to be user friendly and easy to set up, eliminating untidy cable management. Route the cables through the back of the Cages and connect your iPad devices.

Modular and mobile. With the ability to remove the iQ Sync Charge Boxes™ from the iQ Wall Cage, syncing and charging can occur almost anywhere, independently of the Cart.

Intelligent power management system.

The iQ 16 Sync Charge Box automatically stages the availability of power to each port. This function prevents the potential of overloading the circuit and protecting your devices.
