## FUYL Tower™ 5

A complete hardware and software solution to efficiently charge, store, secure and manage workflow for mobile devices.

## Smarter mobile device management for any workflow.

Check In/Out

Break/Fix

Shared Devices

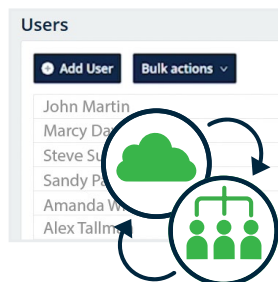

Loaner Devices

Public Charging

Automate manual processes for managing mobile devices to reduce wasted time, minimise device downtime, maintain devices with zero human interaction, provide secure charging on demand and much more.

### Manage User Access to Towers with External Directory Integration.

Integrating your organisation's Active Directory, Google Workspace\*, or other LDAP-compatible directory simplifies and centralises Admin control of user access to FUYL Towers. This integration enhances security, allows for faster setup and offers easier maintenance of Tower users and user group(s). If you prefer not to integrate, a built-in User Directory is also available to manually add and manage users.

### Securely Charge and Store Devices so They're Always Ready for Use.

All bays contain a power outlet and a 2.4 amp USB port so you can securely charge almost any device, including: iPads, tablets, laptops, mobile phones, Chromebooks and more.<sup>1</sup>

### Manage Multiple Towers from One Centralised, Web-Based Portal.

Give designated admins detailed access to view and manage any number of Towers. Efficiently manage Towers by cascading settings to multiple Towers, groups of Towers or groups of users with "bulk operations", "station groups" and "user groups".

### Integrate LocknCharge Cloud with External Systems.

Take device management to the next level. Using Cloud API and webhooks, LocknCharge Cloud can be integrated into external and/or existing IT infrastructure.

*Cloud portal and FUYL Tower Control Module Display are only available in English at this time.*

\* Must be on a compatible Google Workspace plan.

# lockncharge cloud

## Manage Towers from the Cloud

A LocknCharge Cloud subscription grants access to the web-based management portal. Initial subscription is included with every FUYL Tower.<sup>2</sup>

- ✓ Create a tree structure to organise and manage Towers easily.
- ✓ Set up and manage Towers with three levels of administration: Owner, Admin or Station Admin.
- ✓ Easily cascade settings to all Towers, groups of Towers or specific Towers to make setting up and managing Towers quick and efficient.
- ✓ Admins can create User Groups to better manage users and to authorise large sets of users to specific Towers or groups of Towers.
- ✓ View a detailed event log to know who accessed bays and when, know when updates are made by administrators and more.
- ✓ View Tower status at the company, Tower or bay level to see detailed information, such as whether bays are assigned, available or offline.
- ✓ Remotely control Tower access to unlock bays, take a bay offline, clear a user from a reserved bay, set a curfew, or even to completely lock down a Tower.
- ✓ Grant specific users access to certain bays or Towers by using their RFID badge or assigned PIN code.
- ✓ Update Tower firmware and software over the air.
- ✓ Integrate existing IT infrastructure into Tower workflow through Cloud API and webhooks.

## Additional Benefits

-  **Multi-Level Security.** All data stored in the Cloud is protected by industry-standard encryption certificates. LocknCharge Cloud remotely applies updates and security patches to Towers as they become available to better prepare against cyber attacks. Heavy-duty steel construction ensures devices are kept safe while inside the Tower, and Two-Factor Authentication (2FA) protects your account from unauthorised access.
-  **Bay Visibility.** Each bay has an external LED indicator to know if a bay is available (green), reserved (white) or offline (no light). A window provides visibility inside each bay—or if privacy is preferred, window-blocking plates are also included.
-  **RFID or PIN Code Access.** Bays can be opened via RFID or PIN code. FUYL Tower supports almost every RFID standard on the market.
-  **Future Proof.** Modular replacement parts and quick access panels allow for hardware serviceability in the field.
-  **Easy-to-Follow Tower Display.** Administrative functions are available from the 4.3" Graphical Colour Tower Control Module and Keypad. The Tower's user interface is simple to navigate for both admins and users.
-  **Curfew Settings.** LocknCharge Cloud allows admins to configure Tower settings to restrict access to the Tower or a group of Towers.
-  **Optional Network Kit.** An optional Network Kit expands the data transfer capabilities through individual Ethernet connections to each bay. The Network Kit enables installation of a network switch (not included), making it possible to re-image devices remotely.

 **Lifetime Warranty.** LocknCharge products are built to last. Welded-steel construction makes this Charging Locker ultra secure, and a lifetime warranty provides peace of mind.

 **World-Class Customer Support.** Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.

FUYL Tower 5 Specs: 593 (H) x 528 (W) x 480 (D) mm | 35 kg
