

Joey 10 Charging Station™

Charge, store and secure up to 10 devices, starting at \$399.

-  **Efficient USB charging.** With up to 2.4 amps of power at each port, you can simultaneously charge 10 devices in approximately the same time as charging just one.
-  **Compact design.** Transform any desk or bench into a secure space for charging mobile devices. The Joey 10 Charging Station is designed to adapt to your surroundings.
-  **10 year warranty.** Schools can be tough on Charging Stations. LocknCharge products are built to last.²
-  **Compatible.** Designed to store most iPads and tablets and can accommodate devices with a variety of different cases¹.
-  **Secure.** Keep your valuable device investments safe. The high quality steel construction and a hardened steel padlock protects your devices while they're not in use.
-  **Baskets by LocknCharge.** Optional Baskets make device deployments faster and safer, so that Teachers and IT Administrators can focus on creating an engaging learning environment.

It just makes life easier.

Affordable. The Joey 10 Charging Station allows schools to enjoy the education-focused designs LocknCharge is known for at a more entry level price. An easy to use and secure design ensures that you only pay for what you need. Best of all, this multi device charging station is compatible with almost any tablet device, so it is a smart choice for ensuring the devices you have today and the devices you have in the future will be charged and secure.

Easy cable management.

LocknCharge cable management is simple so that you can wire an entire Charging Station in minutes. Save time with set up and gain teaching time in the classroom.

Secure charging.

The externally accessible power outlet means that you can charge your devices while they're safely locked in the Charging Station.

Need Baskets?

Upgrade the Joey 10 Charging Station with Baskets by LocknCharge. Baskets allow you to share and safely distribute devices faster and safer. They also enable students to assist in the distribution of devices, so teaching can happen faster.
