

FUYL Tower™

An intelligent charging station with 15 individually lockable compartments that can store and charge any mobile device.

Efficient charging. Each compartment is equipped with a power outlet and a 2.4 amp USB port, so you can charge almost any device, including; iPads, Tablets, Laptops, Chromebooks, mobile phones and more¹.

Intelligent remote management. The FUYL Tower features innovative software that enables administrators to actively monitor locker usage anytime, anywhere.

Highly Secure. The digital keypad controls the security of every compartment. Additionally, the management software records every time a compartment is opened or closed, enabling administrators to investigate abnormal usage.

Fully ventilated. Designed with passive ventilation to minimize heat build-up during charging.

Lifetime warranty². LocknCharge products are built to last.

lockncharge®

It just makes life easier.

Taking device charging and security to a whole new level.

More than just a powered locker.

Where the FUYL Tower shines is through the innovative management software that comes included with the tower itself.

The FUYL Tower is Wi-Fi Ready and once network connected, designated administrators can view, access and manage one or more FUYL Towers remotely.

Remote access.

Administrators can remotely open any door, deny access to a reserved locker, view the status of FUYL Towers on the network, receive alerts of any abnormal usage or technical fault and download a full audit log.

Future proofed.

FUYL Tower software and firmware upgrades can be downloaded and installed via the FUYL Tower Management Portal.

Secure digital locking system that's easy to operate.

Each individual locker is conveniently operated by the central control panel where you simply follow the prompts on the screen.

API integration available.

Take your FUYL Tower to the next level by integrating with its API - allowing developers to integrate with your software and apps.

Leverage in check-in and check-out environments.

Easily contain fully charged, ready to use devices inside the locker bay until an administrator provides access to a user. Admins can also assign a specific compartment to a single user.

Specifications:

inches: 69.7(H) x 18.8(L) x 18.8(W)

mm: 1771(H) x 477(L) x 477(W)

weight: 78.1kg | 172.2lb
