Joey 40 Specs: 32.6" (H) x 25.2" (W) x 37.5" (L) | 89 lbs

LocknCharge makes life easier.

Top Loading Cart Design. Access from multiple sides at once allows for quicker distribution of devices, plus no more bending down to remove devices from a bottom shelf. Cabinet style carts can take 2-3 times longer to wire, and the removable panel in the bottom gives full access to power cords in one fell swoop. Your back and your sanity will thank you!

Organized Cables and Hidden Bricks. Minimize classroom chaos by clipping down those gosh darn cables once and for all. Cables stay organized in the unique side channel, allowing you to plug in devices quickly after each use. Power bricks are stored in the bottom of the Cart, making sure they don't sprout legs and wander off.

Baskets by LocknCharge. These ain't your grandma's Longaberger baskets. Slotted device Baskets by LocknCharge make device deployments faster, safer and more efficient. Teachers can get back up to two weeks of teachin', giving students more time for learnin'.

External Charging Status Display. Everyone knows teachers are super heroes, but as it turns out, most don't have x-ray vision. With our Joey Carts, it's super easy to know the charging status of your devices through the external ECO Safe Charge™ display.

Smarter Workflow

Less Wasted Time. More Teaching.

Our Baskets enable teachers AND students to hand out and pack up devices quickly and easily. This not only saves valuable time, but it also allows teachers to focus on teaching while empowering students to take the reins on classroom management by handing out devices without teacher assistance.

Perfect for Shared Use.

Not enough devices to go around? No problemo. Schools can now easily share a small handful or a whole dang cartload of mobile devices between classrooms without the fuss. When teamed up with our baskets, our lightweight, easy-to-manuever Carts allow you to transport mobile devices quickly, safely and easily.

Additional Key Benefits

Compatible & Efficient.¹ Larger devices never have to feel left out. Joey Carts can accommodate and charge 30 or 40 of almost any device, with or without cases.

Affordable. Enjoy the education-focused Cart features LocknCharge is known for at a more entry-level price.

Smaller Footprint. Bigfoot has no place in the classroom. Joey 30 and 40 Cart lids open vertically, leaving a smaller footprint in tight spaces.

Safe Power Management. Never blow a fuse again. ECO Safe Charge™ handles power requirements of almost any device by staging the availability of power. Plus, it ensures that devices are not overcharged, increasing their longevity.

Tough as Nails. Joey Carts are made with high-quality steel, and are backed by a 10-year warranty.

Secure. Protect your device investment without worry. Lock away devices in the storage area with a padlock. An optional anchor kit locks the whole Cart to the floor.

Future-Proof. Think inside the box, and you won't be stuck with a bunch of outdated Carts. Removable racks and baskets allow this Cart to adapt to future needs as devices change or new technology (including STEM/STEAM) is added.

Lock Included. Our Joey Cart comes with a high-quality, stainless steel lock and keys.
