

# Revolution Wall Cage

Designed to charge, store and secure 10 mobile devices.

15" (H) x 22.7" (W) x 15" (L) | 50.7 lbs

## LocknCharge makes life easier.

**The Whole Ball of Wax.** Looking for a simple, all-in-one solution to store, charge and secure up to 10 mobile devices? Well, my friend, look no further. The Revolution Wall Cage holds Chromebook, Laptop or Tablet devices up to 1.96" x 13.77" x 9.76", including power connector.

**Solid as a Rock.** Welded steel construction, a mounting kit and a hardened steel keyed padlock protect devices while they're not in use. Even though the station has a unique, open design, a device cannot be removed when the station is locked—keeping them safe and sound.

**Open & Organized.** Corralling mobile devices can sometimes be as difficult as herding cats—but not with this trusty little charging station. Just like a pen for cows, the doors of the Charging Station are designed like gates, allowing full visibility above and below the doors. So even when the gates are locked up tight, you'll know if a device is on the loose.

**Overload Protection.** All power points have overload protection to keep devices and outlets safe during charging.

# Simplified Workflow

## Simple-as-Pie Organization.

This charging station makes mobile device organization easy as can be. Individual slots give each device a nice little cubby—and because devices are stored vertically, it's super easy to grab a device and keep on movin'!

## Variety is the Spice of Life.

The Revolution Wall Cage has the ability to simultaneously charge a wide array of devices for multiple workflows. Exposed power strips allow students to plug in their own power cords. So whether students bring their own devices or the school provides them, this station offers a simple way to charge just about any device out there.

## Additional Key Benefits

**Case or no case.**<sup>1</sup> Slot dimensions are optimized to work with most cases/covers up to 1.96" x 13.77" x 9.76", including power connector.

**Small Footprint.** Easily place the charging station on a counter or mount it to the wall. Either way, the Revolution Wall Cage takes up minimal space.

**Slots Fit for a King.** A life of luxury awaits your mobile devices as you slide them into the felt-lined slots of the Revolution Wall Cage. This protects your Chromebook, Laptop and Tablet devices from getting scratched—and, of course, keeps them comfortable during their stay.

**High Fives All Around!** The Revolution Wall Cage has two separate doors, each protecting 5 devices inside the Charging Station. This offers flexibility to access only 5 devices at a time while the other 5 are tightly secured.

**Affordable.** Enjoy quality products LocknCharge is known for at a more entry-level price.

**Tough as Nails.** The Revolution Wall Cage is built to go the distance, and it's backed by a lifetime warranty so you'll never have to worry about replacing it.
