

# EVO 40 Cart™

Charge, store, secure and transport up to 40 iPad® or other tablet devices.

Specs: 34.07" (L) x 28.38" (W) x 35.69" (H) | 201 lbs

## LocknCharge makes life easier.

### Small Baskets by LocknCharge.

These ain't your grandma's Longabergers. The EVO 40 comes with eight slotted device Baskets to make deployment faster, safer and more efficient.

### Designed for Extreme Portability.

Equipped with smooth riding wheels, the Cart makes it easy to transport devices. LocknCharge Baskets let you safely distribute devices up stairs, down halls, through doorways, over obstacles, and... you get the idea.

**Highly Secure.** Welded steel and a two-point locking system keep your valuable devices safe at all times. Plus, the optional anchor kit allows you to lock down your entire Cart, so it always stays right where you leave it.

**Lightning Fast Setup.** Setting up an EVO 40 Cart is as easy as one, two, three.

- 1.) Install your cables, conveniently housed under the lid of the Cart.
- 2.) Plug the Cart into a power outlet.
- 3.) Start charging!

# Flexibility without the Bending.

## Saving Time and Backaches.

Baskets by LocknCharge are stored inside tilting compartments on both sides of the Cart to create a more efficient workflow. Not only is it better ergonomically, it also creates better and broader access to your tablet devices, so that you can get to work much faster.

## It's a Real Picnic.

With the ability to easily remove the device Baskets from the EVO 40, transporting small numbers of devices anywhere is quicker than ever before. So, pack a blanket, grab a Basket and go enjoy some high-tech freedom.

## Additional Key Benefits

**Pow Pow Powerful.** Efficient Charging makes for a more productive tablet. With 2.1 amp power at each port, the EVO 40 Cart is capable of charging up to 40 iPad or tablet devices simultaneously.

**Quick Access Storage.** Beneath its lockable lid on the top of the EVO 40 Cart is a storage compartment large enough to hold a computer, extra cables and other accessories. This is also where the power packs are stored to make cable setup and access fast.

**Security On the Move.** Roll the EVO 40 and your devices anywhere you need them. You can rest assured knowing tablets not in use are inside the tilting storage compartments, each with a secure, 2-point locking system. At the end of the day, the heavy duty anchor kit (sold separately) offers additional peace of mind.

**Tough as Nails.** LocknCharge products are built to last. That's why EVO 40 Carts are backed by a lifetime warranty<sup>3</sup> worth writing home about.

**Intelligent Power Management.** ECO Safe Charge™ can handle the power requirements of almost any device by staging the availability of power to each bank of devices – preventing a potential overload of the circuit and protecting your iPads and tablets.
