

lockncharge cloud

FUYL Tower 5 or 15™

A complete hardware and software solution to efficiently charge, store, secure and manage workflow for mobile devices.

Smarter mobile device management for any workflow.

-  Check In/Out
-  Break/Fix
-  Shared Devices
-  Loaner Devices
-  Public Charging

Automate manual processes for managing mobile devices to reduce wasted time, minimize device downtime, maintain devices with zero human interaction, provide secure charging on demand and much more.

Set Up and Manage Who is Allowed Access to Bays and Towers. LocknCharge Cloud has a built-in User Directory that enables admins to control who is allowed to use FUYL Towers. Specific users can be granted access with RFID or a unique PIN.

Securely Charge and Store Devices so They're Always Ready for Use. All bays contain a power outlet and a 2.4 amp USB port so you can securely charge almost any device, including: iPads, tablets, laptops, mobile phones, Chromebooks and more.¹

Manage Multiple Towers from One Centralized, Web-Based Portal. Give designated admins detailed access to view and manage any number of Towers. The ability to cascade settings to multiple Towers at once with 'bulk operations' ensures efficient Tower and device management.

Integrate LocknCharge Cloud with External Systems. Take device management to the next level. Using Cloud API and webhooks, LocknCharge Cloud can be integrated into external and/or existing IT infrastructure.

lockncharge cloud

Manage Towers from the Cloud

An annual LocknCharge Cloud subscription grants access to the web-based management portal.

- ✓ Easily cascade settings to all Towers or specific Towers to make setting up and managing Towers quick and efficient.
- ✓ View a detailed event log to know who accessed bays and when, know when updates are made by administrators and more.
- ✓ View Tower status at the company, Tower or bay level to see detailed information, such as whether bays are assigned, available or offline.
- ✓ Set up and manage Towers with three levels of administration: Owner, Admin or Station Admin.
- ✓ Remotely control Tower access to unlock bays, take a bay offline, clear a user from a reserved bay, set a curfew, or even to completely lock down a Tower.
- ✓ Grant specific users access to certain bays or Towers by using their RFID badge or assigned PIN code.
- ✓ Update Tower firmware and software over the air.
- ✓ Integrate existing IT infrastructure into Tower workflow through Cloud API and webhooks.

Features vary by Cloud Subscription Tier. Please review our Cloud Subscription Tiers at www.lockncharge.com/cloudtiers for complete features.

Additional Benefits

Multi-Level Security. All data stored in the Cloud is protected by industry-standard encryption certificates. LocknCharge Cloud remotely applies updates and security patches to Towers as they become available to better prepare against cyber attacks. Heavy-duty steel construction ensures devices are kept safe while inside the Tower.

Bay Visibility. Each bay has an external LED indicator to know if a bay is available (green), reserved (white) or offline (no light). A window provides visibility inside each bay—or if privacy is preferred, window-blocking plates are also included.

RFID or PIN Code Access. Bays can be opened via RFID or PIN code. FUYL Tower supports almost every RFID standard on the market.

Future Proof. Modular replacement parts allow hardware serviceability in the field. Software and firmware upgrades are available over-the-air via the LocknCharge Cloud with a subscription purchase.

Easy-to-Follow Tower Display. Administrative functions are available from the 4.3" Graphical Color Tower Control Module and Keypad.² The Tower's user interface is simple to navigate for both admins and users.

Curfew Settings. LocknCharge Cloud allows admins to configure Tower settings to restrict access to the Tower or a group of Towers.

Optional Network Kit. An optional Network Kit expands the data transfer capabilities through individual Ethernet connections to each bay. The Network Kit enables installation of a network switch (not included), making it possible to re-image devices remotely.

Magical Unicorn Lifetime Warranty. All of our products are fully backed by a lifetime warranty on the main frame, electrical and all other components.*

World-Class Customer Support. Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.
