Putnam 16 GEN 1 - Specs: 12.3" (L) x 14" (D) x 27.8" (H) | 41.8 lbs  
Putnam Pedestal: Not available through Apple.

## LocknCharge makes life easier.

### External Charging Status Display.

With the Putnam Charging Station, it's easy to see the charging status of each individual device—even from across the room. Each slot is tied to an external, LED back-lit number that shows if a device is charging (red), charged (green) or not plugged in/missing (no light).

### Kiss Those Tangled Cords Goodbye.

It's virtually impossible to tangle the charging cables in the Putnam Charging Station. The cords are the just the right length to reach each device—no more, no less, no mess.

### Simple Setup.

Putnam 8 and 16 Charging Stations are pre-wired with 8 or 16 MFi-approved lightning cables for iPad devices. Just plug the station in, program the lock and you're ready to go.

### No Keys to Worry About.

With an integrated mechanical combination lock, there are no keys to worry about. In the event of a forgotten combination, we've included a master override key.

# Worry-Free Workflow

## Save Time by Sharing Responsibility.

By assigning a numbered slot to every student, each student can take ownership of plugging in their device. All the teacher has to be responsible for is unlocking the station in the morning and locking it up at the end of the day. With the red and green charging status lights, teachers can take care of any unplugged or missing device issues with minimal effort.

## Four Combinations.

Combine a Putnam 8 with a Putnam 16 to charge 24 devices—or utilize two Putnam 16's to get to 32 slots. To save space, stack two Putnams on top of one another. Or if congestion around the station is your main concern, simply place multiple Putnams in different areas of the room to spread out the distribution of devices.

## Additional Key Benefits

**Magical Unicorn Lifetime Warranty.** All of our products are now fully backed by a lifetime warranty on the main frame, electrical and all other components.\* It's a one-of-a-kind guarantee that's as unique as a magical unicorn.

**World-Class Customer Support.** Our helpful and friendly Customer Support team will promptly assist with any product issues or questions that may arise.

**Efficient.** With 2.4 amp charging at each port, the Putnam Charging Station can charge devices simultaneously.

**Case or no case.<sup>1</sup>** Slot dimensions are optimized to work with most cases and covers. (Station is not compatible with Logitech® Rugged Cases.)

**Itty Bitty Footprint.** The Putnam takes up as much desk space as a sheet of scrapbook paper. Now that's compact!

**Safe Power Management.** Once a device's charge goes from red to green, the Putnam stops charging. This ensures that devices are not overcharged, increasing their longevity.

**Stackable.** Stack two Putnam Charging Stations on top of each other to save even more space. An optional pedestal is available to provide easier access to the bottom slots, and it allows you to charge all 24 or 32 units with one outlet plug. It also keeps the unit higher off the floor so you don't have to bend down as far to access devices on the bottom shelves.

**Tough as Nails.** Fully-welded steel construction and a built-in mechanical combination lock make this charging station ultra secure. It's also backed by a lifetime warranty worth writing home about.

**Two Heads are Better than One.** Our partnership with Putnam City Schools led to the development of the Putnam 16. By working together, we found a solution to fulfill their mobile device charging and securing needs.
